

A photograph of a dining table set for a meal, featuring a large, patterned tablecloth with a floral and bird design. The table is set with plates, glasses, and a centerpiece of red flowers. The background is a light-colored wall with a grid pattern.

SUPERIOR WEAVING QUALITY

Our tightly woven tablecloths feature delicate patterns, showcasing an unparalleled level of refinement. This weaving technique, often referred to as “High Thread Count”, uses a greater number of threads, which not only enhances resistance but also unmatched finesse in the patterns, great brightness, and softness in the fabric to the touch.

GREEN SWEET STAIN RESISTANT TREATMENT

This innovative stain-resistant treatment ensures easy and cost-effective use of linens in everyday life. Invisible to the eye and to the touch, Green Sweet provides effective and long-lasting protection against stains.

AVAILABLE IN COATED COTTON

Coated Cotton fabric is a 100% cotton woven fabric covered with a double layer of waterproof acrylic for easy everyday use: just a quick wipe with a sponge is all it takes!

MADE-TO-MEASURE CREATIONS

Garnier Thiebaut provides a wide selection of customizable fabrics. For inquiries about feasibility, pricing, and ordering details for these special creations, please contact our sales team.

TWO-PLIED YARN

The use of plied yarn in weaving our tablecloths ensures superior quality. Plied yarn, formed by twisting two threads together, makes the fabric stronger, improves mechanical resistance, enhances brightness, and ensures better durability.

GARNIER THIEBAUT

1 8 3 3

This season Garnier Thiebaut draws a new line. Inspired by the rich textile history of Japan, our designers infused a delicate vision of contemporary Japanese influences with the evocative sensory experience of Autumn. Without ever straying from the foundations that drive our creations; nature, flora and fauna, this collection offers a renewed perspective. Fall-Winter 2025 accentuates the tactile nature of textiles through an interplay of layered textures that shift in the light, edges that blur where threads subtly merge, and the colors and patterns each weave creates. Our products are reinvented. Carrying more visible geometry, this collection embodies a sense of modernity, a desire for elegant simplicity and sensation. It is fabric as landscape: dimensional, rhythmic, and alive with the suggestion of motion captured in stillness.

Paul de Montclos,
CEO of Garnier Thiebaut

Quiet Intricacy

CONTEMPORARY ELEGANCE

Inspired by the physical poetry of woven surfaces, the quiet complexity of interlaced threads, the way texture emerges from repetition, tension, and rhythm. Each fabric carries a visible geometry: lines that intersect, blend, and build upon each other to create a surface that is both structured and soft, open yet contained.

Woven Botanica

THE LENS OF FALL

This part of the collection draws from the organic language of the natural world, the changing of leaves, the softness of petal edges, and the incandescence of Golden Hour. Rather than mimicking nature directly, these elements are distilled into texture, form, and movement within the textile itself.
