La Tombée was born out of passion and curiosity. Now it is a collection of four fragrances, each an ode to memory.

Every bottle is made by hand in small batches. From Montreal, with love.

Perfume oil is a concentrated form of fragrance that contains no alcohol, making it richer, longer-lasting, and more intimate on the skin. Unlike traditional perfumes (like eau de parfum or eau de toilette), which are diluted with alcohol and often sprayable, perfume oils are usually dabbed or rolled on and evolve more gradually over time.

THE PERMANENT COLLECTION
